

Specifications of Utility Tool Invention Pertaining to the Vertical Wall Mount Can Pet Food Dispenser:

This utility item has been made at home for the last 10 years or so for the purpose of easily storing can pet food with easy access to the cans in storage as well as a view of how many cans remain in the holder.

The photos are of the dispenser at several different perspective views in different colors, along with the dimensions of the unit. The drawings will reflect the original design.

This utility tool will hang vertically on the wall, hold up to 14 cans of pet food, have a view window to show how many cans are left in the dispenser, and dispense one can at a time from the bottom the stack by being pulled outwards by a person.
